

Due to a system upgrade over Christmas any saved information in the 'My Favourites' area of iDiscover (pins, searches etc.) will be lost. This will also affect any permalinks to records which you may have saved.

If you wish to retain item information, you can choose to print it or export it to a reference management system.

Our apologies for any inconvenience caused.

To extract your pins

- Login to iDiscover on the top right of the screen:

- Press the pin icon  to go to the 'My Favourites' page (containing pinned items as well as saved searches and search history). Note that search history is only retained during the current browser session.
- Select the relevant tab e.g. saved records (your pinned items). Select all the records you wish to print – there is a tick box at the top of the results that will select them all at one.

The screenshot shows the 'My Favourites' interface. At the top, there are three tabs: 'SAVED RECORDS', 'SAVED SEARCHES', and 'SEARCH HISTORY'. The 'SAVED RECORDS' tab is active. Below the tabs, there is a header for '18 items' with a checked checkbox. The main area displays a list of three articles, each with a checked checkbox on the left and action icons (quote, email, print, and ellipsis) on the right. The first article is 'The Feministic View of Bertha Mason in Jane Eyre - The Feministic View of Bertha Mason in Jane Eyre' by Li Wei. The second is 'Did the "Woman in the Attic" in Jane Eyre Have Huntington Disease?' by Elizabeth A. Coon and Anhar Hassan. The third is 'BERTHA AND THE CRITICS - THE CHARACTER OF BERTHA-MASON IN BRONTE, CHARLOTTE 'JANE EYRE'' by Lerner, L. Each article entry includes a 'Full text available' link and an 'ADD LABELS' button.

Once you are happy with your selection, select the ellipsis (...) from the 'My Favourites' bar and select 'PRINT'.

From the ellipsis you can also choose to email the results to yourself, or export them to reference management software.

To extract your saved searches

- Login to iDiscover on the top right of the screen:

A rectangular button with a black background and the text "Login to iDiscover" in white.

- Press the pin icon  to go to the 'My Favourites' page (containing pinned items as well as saved searches and search history). Note that search history is only retained during the current browser session.
- Select 'Saved Searches' to see your list.
- Please note there is no print function within iDiscover for saved searches. You can use your browser to print, but we recommend looking at the print preview to ensure you are happy with the display. Otherwise, we recommend using print screen to take screenshots of your saved searches that can then be printed or pasted into a Word document for future reference.

Once the upgrade is complete in early January 2018 you may choose to recreate your searches and pins in iDiscover.
