

Finding Journals and Articles in iDiscover

Log in to iDiscover before you start searching to get complete results, full access to journals online, and the facility to request items. (See [Quick Guide: Logging in](#))

1. Finding journals

- Enter the title of the journal in the simple search box.

For example, *Nature*:

- This will search across all Cambridge libraries and collections (print and electronic).

Note: To refine your search to a single library select a library from the dropdown list.

Tip: Use “...” to focus the search to the exact title. This will bring up more relevant results.

- You can identify records for journals by the label JOURNAL:

2. Locating print journals

- Click on a journal title to see further details and libraries that have the journal. Print journals will show the location and classmark. You will see ‘**Check holdings at**’ or ‘**Available at**’.
- Click on the ‘**Check holdings at**’ or ‘**Available at**’ link to see which libraries have the journal and further details (‘**and other locations**’ means there are several locations where this print journal is held. Click this link to see a list of the libraries with this journal edition).

- The full list of libraries is then shown.
 - Click on ‘**Available**’ or ‘**May be available**’ to see the most recent issues in a library:

3. Linking to ejournals

- Click on the ‘**Online access**’ link to link through to the ejournal online:

(See also: Quick Guide: Advanced searching methods)

Note: eJournals that have been received under Electronic Legal Deposit can only be accessed on the dedicated legal deposit terminals located in the University Library and Affiliate Libraries (see <http://www.lib.cam.ac.uk/collections/departments/legal-deposit/access-electronic-legal-deposit>)

If access to any resources are restricted (e.g. Electronic legal deposit items) this will be shown beneath the item entry on both the brief results and detailed information pages.

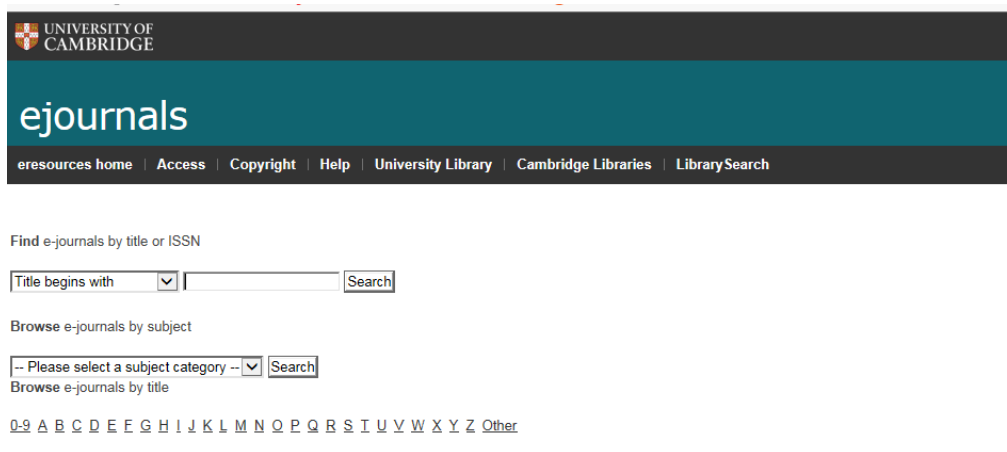

3.1 Alternative ways of finding ejournals

- Click on the 'EJOURNALS A-Z' link at the top of the iDiscover page:

- This brings up an ejournals page where you can search for ejournal titles:

Note: There is also a citation search function on this website.

4. Finding articles

- Enter the title of the article in the simple search box.

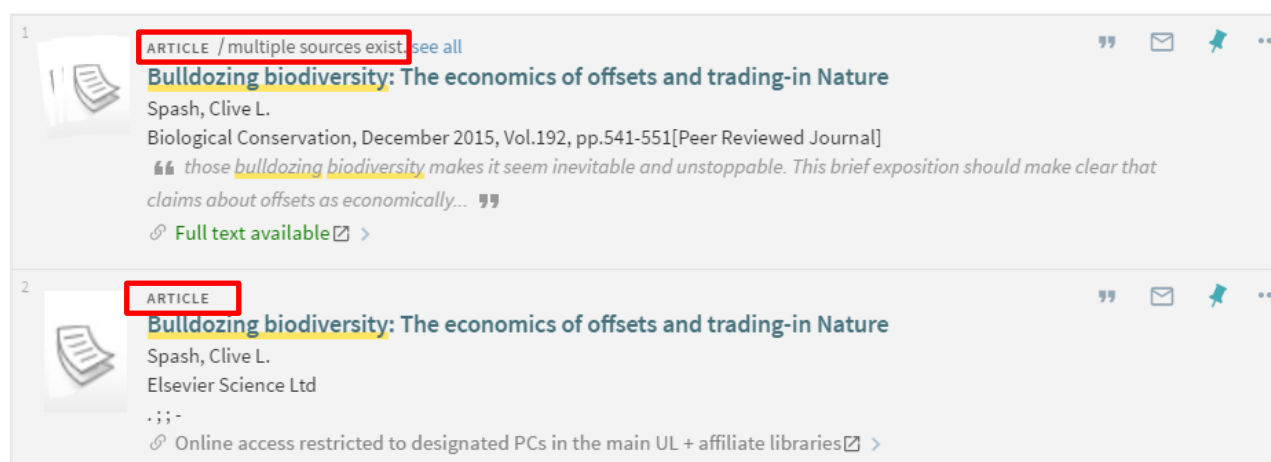

For example, Bulldozing biodiversity:

- This will search across all Cambridge libraries and collections.
Note: If you want to find a print article, search for the journal title. Searching for article titles will provide electronic article results only.

Tip: Use “...” to focus the search to the exact title. This will bring up more relevant results.

- Article records will show the word ‘ARTICLE’ in the results list:

Note: ‘multiple sources exist’ means that the same article can be accessed from a number of different sources. You can click through to the detailed information page to see the different possible sources available.

5. Refining your results for journals and articles

- Use the filters in the 'Refine my results' section to the right of the results screen:

The screenshot shows the iDiscover search interface. At the top, the University of Cambridge logo and navigation links are visible. The search bar contains the query 'nature'. Below the search bar, the results are displayed in a list format. The 'Refine my results' sidebar on the right is highlighted with a red box, showing the following filters:

- Availability**
 - Peer-reviewed Jou... (9,893,472)
 - Full Text Online (15,433,903)
 - Available in the Library (88,112)
- Resource Type**

 - Newspaper Articles (2,761,679)
 - Reviews (671,201)
 - Conference Proceed... (345,057)
 - Text Resources (113,346)

The main results list shows three items:

- ARTICLE**: Purifying Practices: How Consumers Assemble Romantic Experiences of Nature. CANNIFORD, ROBIN ; SHANKAR, AVI ; Journal of Consumer Research, 2013, Vol.39 (5), p.1051-1070. Full text available.
- JOURNAL**: Nature: physical science. no. 1-155; Jan. 4, 1971-Dec. 17/24, 1973., Vols.229-246(1971-73), London, Macmillan Journals Ltd. Check holdings at UL: Temporary Store 2. Request via Inter-Library Loan (A0.1.10) and other locations.

Useful filters include:

- 'Availability'**: You can use this filter to limit results to:
 - Peer-reviewed journals
 - Full text online: This refines a search to only electronic resources.
 - Available in the library: This refines a search to only print copies held within libraries.
- 'Resource type'**: You can refine results by 'journal' or 'article', 'newspaper article', etc. using this filter.
- 'Library'**: Use this to find a print journal in a particular library.
- 'Subject'**: You can refine your journal/article search by subject area here.
- 'Author/Creator'**: Use this filter to refine by publisher or author.
- 'Language'**: You can refine your journal/article search by language here.
- 'Creation date'**: Put years in here to refine your journal/article search.
