

Where to Buy Current Maps Outside of Britain

- The following is a very selective list of larger map suppliers based outside of Great Britain. It is possible to purchase maps from these companies by mail, and sometimes through their web sites. However, it is always a good idea to check if a map is in stock before ordering. If not, be warned that the map may take many months to arrive. The inclusion of a company does not necessarily mean that we have purchased maps from that company or that we recommend them.
- For a list of suppliers in Great Britain see [*Information Sheet 1A*](#); for suppliers of Soviet Military Mapping see [*Information Sheet 1C*](#).
