

Parent/Guardian consent form for applicants aged 16 and 17

Applicants aged 16 and 17 who wish to consult material in the University Library* must submit a completed parental/guardian consent form to the Reader Registration office in the main University Library, alongside a second item of photo ID. Please note there may be a charge, for more information, see <http://www.lib.cam.ac.uk/using-library/joining-library>

This form serves as both an application for a library card and gives permission to register for a temporary computer account.

Parental/Guardian consent form. Please use one form for each applicant

The applicant named below has my permission to use and read materials held in the University Library and to use the internet on the premises.

I understand that the applicant will be issued with photo ID card. This enables secure access and provides user functionality through the University Library's Discovery Service, iDiscover. For more information about how the libraries of the University handle personal information, and an individual's rights under data protection legislation, please see <https://www.information-compliance.admin.cam.ac.uk/data-protection/general-data> and <http://www.lib.cam.ac.uk/privacy-policy>.

I understand that there is a variety of information available in the Library and that some of that information is of an adult nature. I understand that the Library's policy of academic freedom means that use could include unfiltered and unmonitored access to the printed material and the internet.
