

CUEX RESOURCES

Catalogue of the Cambridge Expeditions Society Library in the University Library

Report compiled by Jonathan Randall, CUEX committee member, in October 1999. The report is intended as a reference guide so that expedition leaders and members, as well as CUEX expedition advisors, know what is in the library and how to find it. Not only is the information contained in the library of considerable historic interest, but it can provide prospective expeditions with loads of new ideas and information related to expeditions that have gone all over the world.

LOCATION The CUEX library is located in the map room (first floor) of the University Library. We have 9 draws on the right hand side of the filing cabinet block.

To catalogue the contents of these draws I have labeled the draws A-I. From the front these draws can be seen:

A	B	C
D	E	F
G	H	I

The following catalogue lists the complete contents of the library at the time of writing, I hope to update this document as I receive further material for the library, and to pass this document to future CUEX committee members.

ABBREVIATIONS: CE= Cambridge Expedition
 OE= Oxford University Expedition
 RGS= Royal Geographical Society
 EAC= Expeditions Advisory Centre (based at the RGS)
 CEC= Cambridge Expeditions Committee
 CUETC= Cambridge University Explorers and Travellers Club
 (now CUEX)
