

Fantasy Map Collection (in classmark order). Classmark = Maps.Fantasy.1, Maps.Fantasy.2, etc.

This collection was assembled in 2014-2015 by Ian Pittock, Cambridge University Library Map Department staff member, who posted a request for examples of fantasy maps on the Cartographers' Guild website <https://www.cartographersguild.com/showthread.php?t=30761>. This resulted in some high definition files being supplied and it is from these that the prints were made.

Cartographers' Guild is 'a forum created by and for map makers and aficionados, a place where every aspect of cartography can be admired, examined, learned, and discussed ... membership consists of professional designers and artists, hobbyists, and amateurs - all are welcome to join and participate in the quest for cartographic skill and knowledge'. They specialise in maps of fictional realms, as commonly used in both novels and games (both tabletop and role-playing), but many Guild members are also proficient in historical and contemporary maps. They specialize in computer-assisted cartography (such as with GIMP, Adobe apps, Campaign Cartographer, Dundjinni, etc.), although many members also have an interest in maps drafted by hand.
